A Key To Body Wellness

Magnetic Therapy is a wholly natural event. It is neither magic nor medicine. For thousands of years the Chinese have been using magnetic therapy to help a wide variety of ailments. Today, in a world filled with prescription medication, people are finding there is an alternative.

Magnets have been said to help reduce pain and stiffness without any dangerous side effect which can be associated with conventional drug and/or surgical treatments.

The use of magnetic therapy has increased dramatically. Many physical therapists, neurologists, chiropractors and doctors are recommending magnetic therapy to their clients. People of all ages are using magnetic therapy as part of their daily lives.

We Offer

Affordable, high quality Magnetic Jewelry. Our Jewelry is made with super power magnetic beads that will last a lifetime. All of our Jewelry is hand-made by us.

Like any fine jewelry, children should not be allowed to play with this product. Excessive stretching could cause the jewelry to break, and could also present a choking hazard.

Also, Magnetic Jewelry should not be placed directly on credit cards, computer hard drives, computer disks or any other device that use magnetic strips.

You are a unique person and individual results may vary. Wear your Magnetic Jewelry 24 hours a day at first. You may feel benefits within 20 minutes of wearing the jewelry or it may take up to a couple of weeks. Wear it as much as possible!!

Our Story

Thank you for visiting our store. Our names are Joy and Julie, we are sisters and live in Minnesota. We started this business after we found that Magnetic Jewelry is so helpful for pain management.

Julie has suffered from Carpal Tunnel Syndrome for years and had been getting progressively worse. She had worn a wrist brace but it didn't seem to be giving her much relief. We were at a craft fair in Wisconsin when we stopped at a Magnetic Jewelry booth. We read that magnetic help relieve pain and bracelets were especially helpful for Carpal Tunnel Syndrome. Julie thought she would give it a try-within 20 minutes she could feel relief. The only thing she didn't like about the bracelet was that it was so basic black generic looking and didn't have any "BLING" to it. We started investigating on the internet and found that most Magnetic Jewelry looks the same. So being the creative sissy's that we are, we thought we can make this Therapeutic Jewelry pretty, fun, and stylish as well as functional. So we decided if we were going to do this, we needed to add our own unique style to the venture. We got busy and started making jewelry.

Since we started the business it been exciting and rewarding. We have very positive feedback and many repeat customers. Our Magnetic Jewelry is different from any other. We use Magnetized Hemitite, Hemitite in itself is a natural stress relieving stone, we chose this stone because of this extra benefit. We decided to bring some color into our Jewelry, we did this because we wanted people to enjoy their Therapeutic Jewelry and make it less intrusive. We feel people are more willing to wear a piece of Therapeutic Jewelry if they enjoy the look of it.

We hope you will try our jewelry and we look forward to hearing how Joyous Magnetic Jewels have helped you.

Joy & Julie

Optional wood bead colors are available..

Magnetic Therapy

While there is still much debate in the medical community over how Magnetic Therapy works, field research has proven over and over again that in most cases it really does work.

According to recent scientific studies, Magnetic Therapy works for 9 out of 10 people.

Magnetic Therapy helps increase circulation which in turn helps oxygen to travel through the body to parts that are damaged or injured.

If you suffer from pain, general fatigue or want to increase the speed at which your body recovers, Magnetic Therapy could be right for you.

YOU HAVE NOTHING TO LOSE BUT THE PAIN

Instructions

The Magnets and Beads we use will not tarnish or rust, so they can get wet, however, we recommend taking them off before showering to prevent soap buildup.

If needed, the Jewelry can be cleaned with a glass cleaner and wiped with a soft cloth.

The clasps on our Jewelry are also strong Magnets!! If you want to remove your Jewelry please remember to separate at the clasp by snapping them a part (like a pea), not pulling them directly apart. Pulling the clasp directly apart could cause string inside Jewelry to stretch or break.

Pay me securely with any major credit card or through PayPal!
